## DESIGN THE GATE – Win 3000 Euros

*3,000 Euros per project selected 1 mechanical and 1 electronic / Total budget: 6000 Euros*

### Competition to design and construct a Canoe Slalom Gate

The ICF is calling for designs and models for new Canoe Slalom Gates that would allow the audience and spectators to clearly understand touches by athletes. The design of the Gate

should easily demonstrate when a touch is made by an athlete. The goal is to further enhance Sport presentation at our events.

The gate design can be electronic or mechanical in nature.

The Gate system should be usable for all levels of Canoe Slalom competition.

The ICF will award one (1) cash prize to the selected design for electronic gate and one (1) cash prize for the selected design for mechanical gate, plus further help in construction for the selected projects for making a prototype.

The competition is open to fans, athletes, coaches, national federations and companies related to canoeing. You can apply by email to [info@canoeicf.com](mailto:info@canoeicf.com).

The ICF will accept drawings, videos, sketches and powerpoint presentations of potential designs.

The ICF is expecting from the bidders the following information:

- Description of the concept
- Drawing – principle scheme
- Mechanical or electronic layout
- Estimated budget for fabrication

Deadline for submissions is 1st July 2016.

The ICF Canoe Slalom Technical Committee and ICF Vice President and Three times Olympic Gold Medallist Tony Estanguet will be the judges for the design competition.

Note: ICF reserves the right to select components of each entry and use the designs in whichever format it deems appropriate. Recognition will be given to those parties from which any use of novel or innovative ideas are taken.

## About International Canoe Federation

The International Canoe Federation is responsible for the global sport of canoeing and has 162 affiliated National Associations and 10 disciplines - Sprint, Slalom, Paracanoe, Wildwater, Marathon, Canoe Polo, Freestyle, Ocean Racing, Dragon Boat and Canoe Sailing.

Canoeing has two Olympic disciplines, with Sprint introduced at the 1936 Berlin Olympic Games and Slalom at the Munich 1972 Olympic Games; Canoeing is also due to make its debut at the Rio 2016 Paralympic Games with Paracanoe.
